

 **I-RUNNER**

**Therapeutic Shoes and Diabetic Footcare Catalog**

# Diabetic shoes from the Heartland

I-Runner is a family-owned business located in the Midwest.

In keeping with our traditional Midwestern ideals we treat our customers like royalty.

Centrally located near all of the major shipping hubs in Indianapolis we can reach almost everyone in just a few days.

Our customer service is in house- we don't believe in outsourcing our positions.

Our shoes are great and they're priced below comparative shoes from other brands.

More than just shoes, we also created a topical pain reliever and carry our own line of orthopedics products.

Give us a call at **855-880-7463** and dial **1** if you want any more information.

## *I-Runner shoes will give you happy feet*

Our extra-depth shoes are designed in the United States by a podiatrist whose goal was to create a comfortable and stylish athletic shoe that everyone would want to wear while at the same time having enough features to be classified as a therapeutic shoe and be covered under Medicare's diabetic shoe program.

If you are on your feet all day, if you are starting to suffer some foot pain, if you suffer from conditions such as plantar fasciitis, hammer toes, blisters, corns, bunions or calluses then you could benefit from I-Runner shoes.

### Sizing Chart

STYLE	WIDTH	SIZE
Men's	M, W, XW	7.5 - 12, 13, 14, 15
Women's	M, W, XW	6 - 11

Sizes:

M: 7.5 - 12, 13, 14, 15 | W: 6 - 11

# Pro Series

*A5500 approved*

Crafted from either a leather or a leather and mesh combo upper, the Pro Series from I-Runner will allow you to not only walk in comfort but safety as well. The state-of-the-art anti-slip sole provides traction on a variety of surface types.

Protect against slips, trips and falls with these non-slip diabetic shoes.

*Exclusive tread design with oil & slip resistant outsole*

*Perfect for employees in healthcare, food service, supermarketing, factories, fire departments, law enforcement and other service industries.*

### Sizing Chart

 Width: M, W, XW  
 Women's Size: 6 - 11  
 Width: M, W, XW

# Velcro Series

*A5500 approved*

Say goodbye to shoe laces and bungee straps with the I-Runner Velcro Series.

The first shoe in this new series is the Elite. With its mesh and microfiber upper and secure velcro closure the Elite diabetic shoe is on a level all its own.

Ultra-lightweight, breathable and airy mesh material

Features elastic laces in place of the traditional cotton laces.

## Elite - Velcro Series

### Sizing Chart

Men	Women

15	15.5

The unisex Elite shoe fits both Men's and Women's sizes, this allows you to fit a wider variety of patients.

It comes in the three standard widths of M, W, XW.

**This is a Unisex shoe**

# THE CLOUD INSOLE

PDAC A5512 | Heat Moldable Insert

As light and comfortable as cloud, the Micro Cell top cover makes it a great insole for walking as it conforms to the shape of the foot for amazing pressure relief.

Closed cell crosslinked polyethylene foam

Proprietary heat-moldable polyurethane

### Women's Sizes

6-6.5 | 7-7.5 | 8-8.5 | 9-9.5 | 10-10.5 | 11-11.5

### Men's Sizes

7-7.5 | 8-8.5 | 9-9.5 | 10-10.5 | 11-11.5 | 12 | 13 | 14 | 15

# Impression Kits

Download the free I-Runner scanner app for your iPad equipped with a Structure I/O scanner to email impressions to the lab

Or you can order the traditional foam impression kits and mail them to the lab

## A5513 Custom Insoles

Bilaminate? Trilaminate? One pair or three?  
Toe fillers? TMA fillers?

**We can do all of that.**

## Comfort Socks

- Non-constricting band
- Designed by a pedorthist
- 100% cotton
- Padded foot bed
- Transverse arch band for support
- One size fits most

## Brannock Device

- Combination male and female measuring device - no need to own two different ones now
- Perfect way to accurately measure your customer for their I-Runner shoes

## Lock Laces

- Works on most athletic shoes
- Replace cotton laces with bungee laces
- Convert I-Runner shoes into "slip-on" shoes

Purchase individually or as a countertop display

# Icy Freeze

## Topical Pain Reliever

Icy Freeze is an all-natural topical pain reliever containing Aloe, Vitamin E and Ilex.

Icy Freeze provides soothing temporary relief from minor aches and pains associated with sore muscles, strains, joint discomfort, arthritis and tendonitis.

- ❄️ **GREASLESS, NON-STAINING**
- ❄️ **NATURAL INGREDIENTS**
- ❄️ **COOLING PAIN RELIEF**
- ❄️ **VANISHING SCENT**
- ❄️ **EASY TO APPLY**
- ❄️ **DRIES FAST**

### Natural Pain Relief

Derived from peppermint, Icy Freeze has menthol as the active ingredient for pain relief. That's a higher percentage than many other brands. In addition to the naturally obtained menthol, the formula also contains Camphor, Aloe, Ilex and Vitamin E.

### Like Ice but Better

Icy Freeze increases blood circulation in the skin just like ice; there is reduced blood flow to the area it was applied to, just like ice. But unlike ice you can spray, rub or roll Icy Freeze onto your skin and remain mobile. You can apply it and go about your day. Unlike ice, Icy Freeze is a more powerful pain reliever, it lasts longer and you don't have to contend with the dripping and thawing of ice packs; or waiting while the ice pack refreezes again. Icy Freeze is always ready for use.

### Icy Freeze vs Oral Pain Relievers

Even today the most commonly used substance for pain relief by Americans is over-the-counter pills. Some of the problems you deal with in regard to oral pain relievers are not an issue with Icy Freeze.

That means no more waiting for the pills to enter your system, no more side effects, no more wondering if one pill is enough and how many more will you have to take to feel relief. With Icy Freeze you don't have to wait; it acts within a few seconds. Also, you are treating just the area that's affected and not dosing your entire body, and you don't have to worry about conflicts with preexisting medication. It's not a hard pill to swallow, Icy Freeze is just better than oral pain relievers in most cases.
